SUMMARY

Innovative and passionate Full Stack Developer with a flair for transforming complex challenges into elegant, high-performance solutions. I blend artistic front-end design using HTML and JavaScript with robust back-end development in Node.js, Core Java, Advanced Java, and Spring Boot, ensuring seamless, dynamic web experiences. My creative journey extends into mobile development with Kotlin and Jetpack Compose, and I have a keen eye for content and design with WordPress. Adept at harnessing the power of MongoDB and SQL, I build scalable architectures that drive business success while continuously pushing the boundaries of digital innovation.

EDUCATION

2020-2024
B.TECH. - COMPUTER SCIENCE & ENGG.
- GPA: TBA

2018-2020
BHAWANJIBHAI CHAUHAN HIGH SCHOOL & JR. COLLEGE
- Percentage: 65 / 100

PROJECTS

Recipe Reveal : Recipes in a Click
HTML , CSS , JS , ExpressJS, NodeJS .MongoDB , Chatbase,co
- A dynamic recipe website that empowers users to search for Indian and international dishes by ingredients or cuisine. It seamlessly integrates an API-driven database with a curated collection of 7,000 Indian recipes, while also allowing user submissions. The platform features a Health AI chatbot that assists with diet planning by offering diabetic-friendly recipes, calorie-based meal plans, and expense tracking—all built with cutting-edge web technologies.

Noble hands
Html, CSS,JS ,NodeJS ,MongoDB
- Developed Noble Hands, a user management system connecting volunteers with charity events. The platform enables volunteer volunteers to view and accept events, streamlining coordination and supporting impactful social work.

Pox Detector
Python, ML, Tensorflow, Html, CSS , JS
- Developed Noble Hands, a user management system connecting volunteers with charity events. The platform enables volunteer volunteers to view and accept events, streamlining coordination and supporting impactful social work.

Bit Campus Navigator
JAVA, Kotlin , Jetpack Compose, GOOGLE map API
- An innovative BIT Campus Navigator Android app built with Kotlin that effortlessly guides users through every room on campus. Featuring integrated Google Maps, detailed floor layouts, a robust room search function, and quick access to essential contacts, it delivers a seamless and efficient navigation experience for students and staff alike.

AI Code Reviewer
Html, CSS, JS, Gemini API, NodeJS
- n advanced AI Code Review tool that leverages the Gemini API alongside a modern tech stack—HTML, CSS, JS, and Node.js—to automate code analysis. It provides developers with actionable insights, best practice suggestions, and performance optimizations, streamlining the review process and enhancing code quality

SKILLS

- HTML , CSS & JAVASCRIPT
- NODEJS & EXPRESSJS
- CORE & ADVANCE JAVA
- KOTLIN & JETPACK COMPOSE
- MONGODB & SQL
- WORDPRESS
- AWS
- GIT & GITHUB
- PYTHON & ML

INTERNSHIP

The KIran Academy, Pune.
10/01/2024 - 25/06/2024
- 6 month Java full stack industrial training .
- Technologies Learn: Core & Advance Java, Springboot, API, Angular, SQL, Servet .

Inspire Engineering Service, Udupi
16/07/2024 - 28/01/2025
- 6 month Inspire Engineering Services Intern .
- To develop Company Software and Website

CERTIFICATES

- Essentials in JAVA for Professionals
- Cad Centre , Chandrapur
- Web Design and Development
- Satguru Institute of IT
